Ysgol Gymraeg Gwenffrwd: Tymor yr Haf 2024
Thema ysgol gyfan: O dan y môr a'i donnau

Mae'n thema newydd yn cynnig llawer o anturiaethau a dysgu diddorol yn ystod Tymor yr Haf! Diolch i chi, disgyblion Blwyddyn 3,4,5, a 6 am gynnig syniadau am yr hyn yr hoffech astudio (o dan y Thema yma) Rydym fel staff wedi gwrandao ar eich llais ac wedi cynllunio ymchwiliadau / gweithgareddau tebyg i'r canlynol;

- Sut mae'r cylchred ddŵr yn gweithio.
- Pwysigrwydd dŵr glân yn ein bywydau.
- Stori hudolus Cantre'r Gwaelod o dan y dŵr - chwedl hanesyddol Cymreig; trwy weithgareddau creadigol fel Celf, Dawns, Cerddoriaeth a Drama sef y Celfyddydau Mynegiannol.
- Rydych wedi dewis Barti Ddu fel arwr i rai ohonoch - un o Fôr Ladron enwocaf y byd ; cewch gyfle i ysgrifennu yn greadigol, gwaith mapio a chreu ffeil o ffeithiau.
- Archwilio hanes Trychineb Y Titanic - Mynegi barn - beth aeth o'i le? Pwy oedd ar fai?
- Ymchwilio i harddwch a phwysigrwydd Ynys y Galapagos; datblygu sgiliau Gwyddonol, ymchwilio i gynefinoedd gwahanol ac amrywiaeth bywyd gwylt, yn ogystal ag esblygiad anifeiliaid a gwaith / syniad Charles Darwin.

Ein gobaith yw y gallwn drefnu Taith Maes i ymweld â Traeth Talacre cyn diwedd Tymor yr Haf.

Ysgol Gymraeg Gwenffrwd: Summer Term 2024
Whole - School theme: Under the sea

Our new theme offers lots of interesting adventures and learning during the Summer Term! Thank you, Year 3,4,5, and 6 pupils for offering ideas about what you would like to study (under this Theme). We as staff have listened to your voice and planned investigations / activities similar to the following;

- How the water cycle works.
- The importance of clean water in our lives.
- The magical story of Cantre'r Gwaelod - (an ancient Welsh land buried under the sea if you believe the legend!); through creative activities such as Art, Dance, Music and Drama which are the Expressive Arts.
- You have chosen Barti Ddu - a hero to some of you - who was once a world famous Pirate; you will have the opportunity to write creatively, create maps and create a file of facts.

- Exploring the history of the Titanic Disaster - Expressing an opinion on what went wrong? Who was to blame?
- Researching the beauty and importance of Galapagos Island; developing Scientific skills, researching different habitats and wildlife diversity, as well as animal evolution and the work / idea of Charles Darwin.

It is our hope that we can arrange a Field Trip to visit Talacre Beach before the end of the Summer Term.
