Person Centred Practise - Profile from Home: If you recall, you filled in this profile on your child approx 3 years ago, which were absolutely fabulous and gave us, as staff, a real incite into the things that support, calm, promote feelings of happiness, contentment, as well as possibly things that make him / her scared / frustrated etc - all of this information helps us so much, to better understand your child. It is time to complete another profile - they will be sent home before half term, to be returned at the beginning of March - more info to follow. Diolch</p>
